The 1841 decree on tree avenues

issued by the Ministry of the Royal Household and the Ministry of Finance to all royal governments on February 26, 1841.

"The King's Majesty has noticed with displeasure that the (...) trees have often been cut down or otherwise removed during the construction of new avenues.

..... to see to it most strictly that the clearing and cutting down of magnificent avenues, as His Majesty has noticed here and there, is avoided at all costs in future.
